

IMPORTANT RECALL INFORMATION: TIGO and TIGO-on-the-Go Bags

TIGO and TIGO-on-the-Go bags have recently tested for elevated levels of lead. Lead products pose a health risk for young children. To prevent any possible exposure to children, please stop using your TIGO bag and return it to a collection site.

The items inside TIGO (books, blocks, beads, puppets, crayons, scissors, etc.) are safe and do not have lead. You should continue using these items with your child.

When you return your bag, you will receive a puppet and a book. You will get a new TIGO bag once they are made.
